

How to Use iLeads on Your Apple Device in Four Easy Steps:

1. **Download** the App on Your Device for Apple, [download on the App Store here](#)

2. Set It Up on Your Device

- Download and launch the app on your device.
 - Select New Event.
 - Enter event access code contained in your confirmation email.
 - Select Confirm.
-

3. Start Capturing and Qualifying Leads

- Open iLeads.
 - Select on your event name.
 - Select New Lead.
 - Type attendee's badge number or barcode if one is present on the badge.
 - Select done.
-

4. Get Your Leads

An internet connection is needed to upload your leads from your device to the secure website, www.leadslightning.com. Use the user ID and password contained in your confirmation email. If you have purchased multiple licenses, this account allows you to view all of your collected data from the show.
